LA2 Concrete
Dave Latu

Dear Dave,

I had wanted to let you know how happy we are with our recent back-yard remodel and construction of our pre-engineered FireRock masonry fireplace. You and your crew did wonderful work and are real craftsmen.

Your design ideas were appreciated and the execution was always better than what I had imagined. The fireplace looks great and, very importantly, works great-it draws the smoke up and out of our seating area, yet provides real "wood-burning" atmosphere and warmth.

I am very happy we selected you to do this job. If we do any other similar work, we will certainly call you again. I would also be happy to provide recommendations to any other potential clients.

Regards,

Patti Stubban
